SUMMARY

Electrical and Information Engineering graduate with practical training experience in power generation, transmission, distribution, and building electrical services. Gained technical exposure through industrial training at the Ceylon Electricity Board (CEB) and Tudawe Engineering Services, including power plants, grid substations, transformer testing, electrical distribution systems, fire detection systems, and HVAC systems. Strong interest in power systems and electrical engineering, with good technical communication, teamwork, safety awareness, and problem-solving skills.

TECHNICAL SKILLS

Technical	: Testing and Commissioning, Cable Sizing, Earthing Design, Electrical Installation, Lightning Protection, Fault Analysis, Load Flow Analysis, Single-Line Diagrams (SLDs), IEC Standards, Blockchain Technology
Softwares	: OpenDss, DIALux evo, ETAP, AutoCAD Electrical, MATLAB/Simulink, Homer Pro, Proteus, Power World Simulator, MS Office
Soft Skills	: Leadership, Teamwork, Problem Solving, Communication, Time Management, Analytical Thinking

EXPERIENCE

Trainee Electrical Engineer

Aug 2025 – Oct 2025 | [Service Letter](#)

Ceylon Electricity Board (CEB), Sri Lanka

- Gained practical knowledge of hydropower and coal power generation, including turbines, generators, switchyards, power transformers, and overall power plant operations.
- Gained technical exposure to grid substations, including circuit breakers, isolators, CTs, CVTs, protection systems, busbar arrangements, and DC battery systems.
- Gained practical knowledge of transformer testing, including insulation resistance and transformer oil breakdown voltage (BDV) testing.
- Gained exposure to electrical distribution systems, including energy meter testing, distribution construction, planning, development, and maintenance.

Trainee Electrical Engineer

May 2024 – Aug 2024 | [Service Letter](#)

Tudawe Engineering Services (Pvt) Ltd.

No. 505/2, Elvitigala Mawatha, Colombo 05, Sri Lanka

- Gained practical experience in the implementation of fire detection and alarm systems for a large-scale building project.
- Assisted with the installation, inspection, and implementation of fire detection system components and related electrical works.
- Gained practical exposure to HVAC systems and their electrical requirements.

Assistant Electrician

May 2021 – Dec 2021 | [Service Letter](#)

Sanota Constructions

No. 45/2/17, Gardenia Grow, kendaketiya, Kiriwaththuduwa.

- Assisted with domestic electrical installations, including wiring, installation of electrical accessories, and related electrical works.

EDUCATION

University of Ruhuna

Galle, Sri Lanka

B.Sc. Eng. (Hons) in Electrical and Information Engineering

Mar 2022– Jul 2026

- Overall GPA :3.55/4.00
- Course Work :Power Systems, Power System Analysis, Electric Machines, Electric Installations, High Voltage Engineering, Control System Design, Renewable Energy, Power System Protection

Mahinda Rajapaksha College

Homagama, Sri Lanka

G.C.E. Advanced Level

2020

- Passed with 3As (Combined Mathematics, Chemistry, Physics)
- Z-Score :1.8288

G.C.E. Ordinary Level

2017

- Passed with 9As

PROJECTS

Blockchain-Based Local Energy Markets for Increasing Solar PV Penetration and Electric Vehicle Integration in Low-Voltage Distribution Networks

Final Year Project

- Modelled a low-voltage distribution network using OpenDSS with solar PV, EVs, energy storage, and different load profiles, and modelled BESS using HOMER PRO.
- Developed a blockchain-based P2P energy trading approach using smart contracts and evaluated PV/EV impacts on reverse power flow, voltage fluctuations, and PV hosting capacity.

Electrical Installation Design for Apartment Building

May 2026

- Designed a BS 7671-compliant electrical installation for a three-storey residential apartment building, covering power, lighting, protection, and backup systems.
- Performed load assessment, cable sizing, voltage-drop calculations, protective-device selection, SLD preparation, and lighting design.

Lightning Protection System Design

Jul 2026

- Designed an IEC 62305-compliant lightning protection system for a four-storey educational building using risk assessment, LPL III, and the rolling sphere method.
- Prepared AutoCAD layouts for air termination, down conductors, and earthing, including sizing of 12 down conductors and conductor selection.

Hostel Management System

Sep 2024 – Sep 2025

- Developed a web-based hostel management platform using React.js and Firebase to digitalize and streamline university hostel administration.
- Implemented student registration/login, defect reporting, a virtual notice board, and an interactive administrator dashboard.

Sustainable Irrigation System

Mar 2025 – Jul 2025

- Designed an IoT-based solar-powered irrigation system with soil moisture sensing, automated irrigation, and sun tracking for efficient water and energy management.
- Implemented real-time monitoring and remote control through a web interface for smart irrigation management.

Indoor Air Quality Monitoring System

Oct 2024 – Jan 2025

- Developed an IoT-based indoor air quality monitoring system using Arduino, ESP8266, DHT11, and MQ-135 sensors to monitor temperature, humidity, and air pollutants.
- Implemented wireless data transmission and a web-based interface for real-time remote monitoring and visualization.

Highway Bus Seat Reservation System

Oct 2023 – Dec 2023

- Developed a C++ console-based bus seat reservation system for booking, viewing, and cancelling reservations.
- Applied OOP concepts including classes, objects, arrays, and functions, with seat availability and double-booking prevention.

SM Tracker – Social Media Usage Tracker

2022

- Developed a mobile application to track users' social media usage and screen time across different platforms.
- Designed the system to increase awareness of digital habits and encourage healthier and more balanced social media usage.

CERTIFICATIONS

- ETAP
- How to Become a Blockchain Architect
- Instrumentation for Beginners

EXTRA CURRICULAR ACTIVITIES

- Power and Energy System Zone Demonstrator, Rextro 2025 Exhibition
- Member of volleyball team in Mahinda Rajapaksha College from 2019 to 2020.
